

DAVIS™ 50 EXPRESS

The clean, uncluttered deck leads to the curved bridge deck, the center of activity of the 50 Express. The centerline helm provides all-around visibility, and a matching helm seat gives the copilot an equal sense of power. Just aft of the command center, two luxurious, L-shaped settees allow guests to stay close to all the action, whether fishing or cruising. A built-in refrigerator and ice machine keep trips below to a minimum. The entire area can be air-conditioned and enclosed with canvas and curtains. The cockpit, designed

for serious fishing with its built-in baitwell, fish box and freezer, is ready to be outfitted to your specifications by Davis' experienced anglers. Down below, both layouts offer two heads, a VIP guest stateroom, a U-shaped galley, and a large sofa with a Pullman berth. Plan "A" features a forward stateroom with a double island berth. Plan "B" features an offset double berth with a single berth to starboard.
