

DAVIS™ 50 SPORTFISHERMAN

The interior layouts of the Davis 50 Sportfisherman reveal an ingenious use of space, providing comfortable accommodations for 6 people.

Plan "A" features an amidships master stateroom with a double berth that's easy to get in and out of, a large hanging locker and vanity.

The private head has a separate stall shower. Forward, a guest stateroom has two over-under berths and shares a spacious guest head that also has a separate stall shower. A third stateroom, with

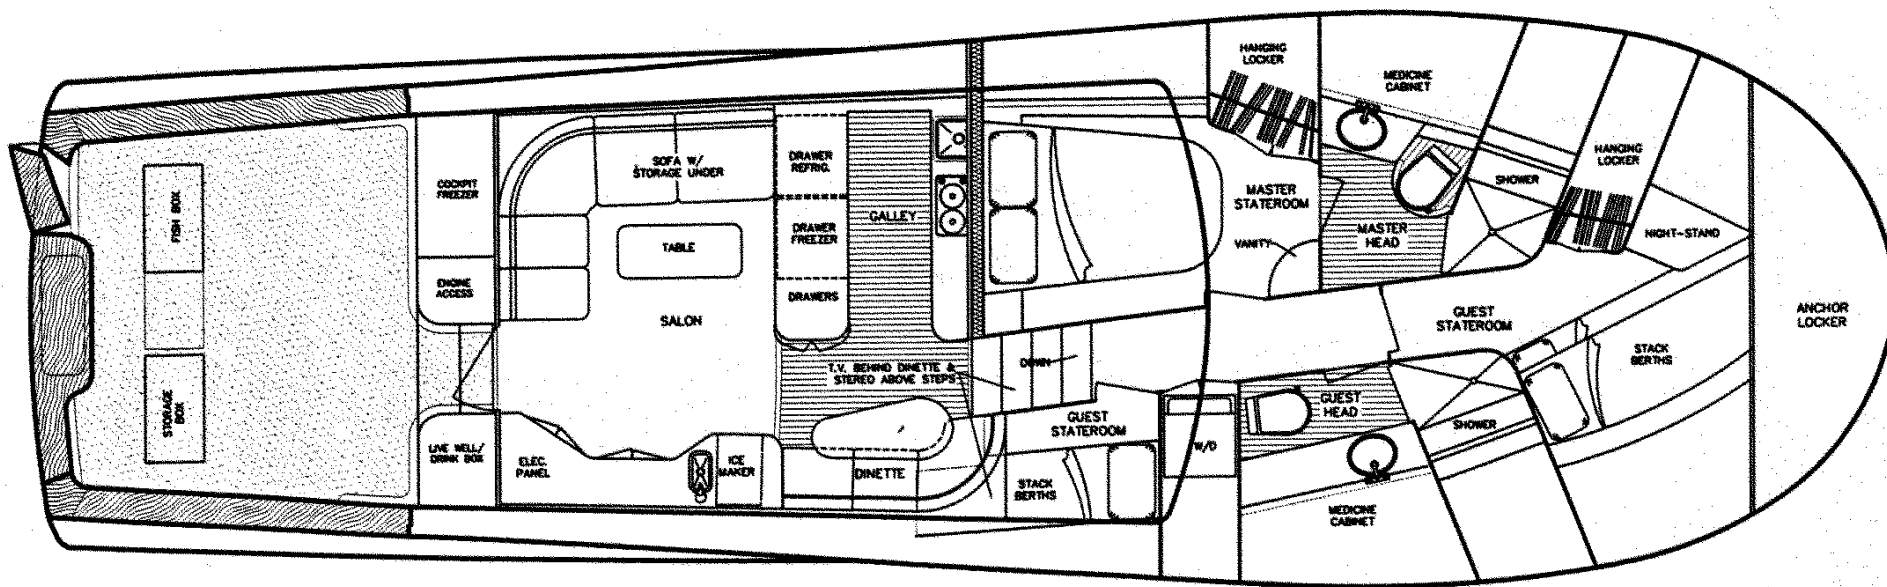

two over-under berths, is to starboard. Plan "B" has the master

stateroom forward and two guest staterooms, each with two stacked berths, to port and starboard. The salon and galley layout is the same

in each plan and features a dinette adjacent to the galley. Convenient, under-the-counter refrigerator and freezer appliances are installed to

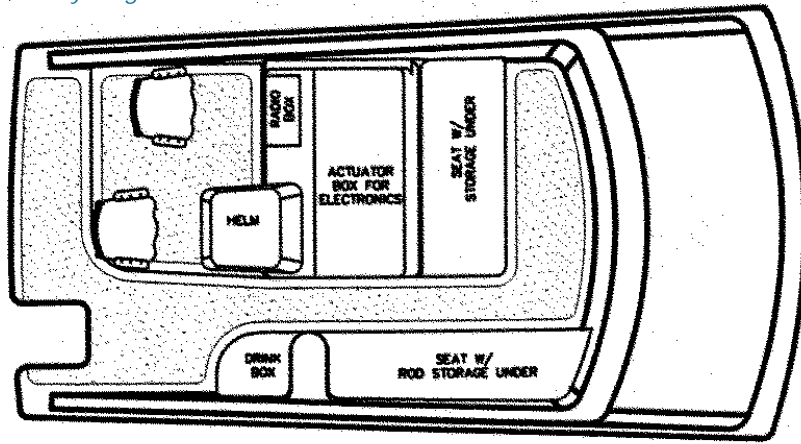

save space. The flybridge is all Davis, with a centerline helm, matching helm chair, custom electronics enclosure and comfortable seating for six. The cockpit is designed for serious fishing with a built-in fish box,

baitwell and freezer.
